

COVERTECH 100

CHARACTERISTIC

The **CoverTech Polyethylene film** line, available in **black/white** colors, is specifically developed for application as a temporary covering in various applications such as on the work fronts of landfills and mining tailings, presenting good resistance to tearing and punching.

Available Dimensions

Width (m)	Length (m)
8	100
12	50

CHARACTERISTIC	METHOD	UNIT	SPECIFIED
Dart Drop Resistance	ASTM D 1709	g	≥ 200,0
Tear Resistance Elmendorf	ASTM D 1922	g/F	≥ 800
Initial Tear Resistance	ASTM D 1004	N	≥ 14
Puncture Resistance	ASTM D 5748	N	≥ 100
Tensile Strength	ASTM D 882	Mpa	≥ 20
Stretching at Break	ASTM D 882	%	≥ 600

The use of CoverTech avoids the occupation of volume that would be compromised by layers of soil, reduces the infiltration of rainwater, brings speed and practicality to the covering process, in addition to controlling vectors, dust and odors depending on the application.

Privately owned **100k sq/ft** facility
High production capacity
100% Made in Brazil
High volume storage of raw and finished materials
